DETAILED ACTION

Double Patenting

The Terminal Disclaimer filed March 16, 2005, has been approved.

Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: Briechele does not address the problem of limiting the messages or a message's content to intelligently bedcheck a particular ESL. Moreover, Briechele does not disclose and does not make obvious the determining by the host computer system a subset of said plurality of registers containing both said informational text and data controlling the display of the informational text. Furthermore, Briechele does not disclose and does not make obvious verifying that the intended contents of said subset of the registers matches the actual contents of said subset of registers. Briechele's system appears to merely perform bedchecks on the entire ESL itself, if at all, without regards to determining a subset of active registers. See Briechele col. 3, lines 59-60.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
